Primary Care for the Whole Family

Primary care for the whole family provided by Care Teams, multidisciplinary groups of healthcare professionals, offering services under one roof, focused on each patient's unique needs.

Treatment of common medical conditions and minor injuries

Behavioral health support for children, teens, and adults

Care Guides with nursing and benefit experience help patients navigate their healthcare in and outside Spira Care Centers and answer questions about benefits, cost, and more.

Comprehensive Medication Management provided by an Ambulatory Care Pharmacist, who partners with your Care Team to help ensure your medications work for you and your lifestyle, are safe, effective, and as affordable as possible, and are transitioned from the hospital to your Spira Care provider if you experience a hospital stay.

And more!

All services provided at Spira Care Centers are based on your primary care needs only and must be ordered by a member of the Spira Care Team. This includes digital x-rays, routine labs and immunizations. Orders by a specialist or someone outside of the Care Center cannot be completed or fulfilled at Spira Care Centers. For needs outside of a Spira Care Center, members will continue to have access to their plans network. Members should refer to their service benefit plan document for costs associated for benefits outside a Spira Care Center.

Access and Convenience

Triage nurses and an on-call provider to answer your health questions

On-site lab and X-rays at most Care Centers

Seasonal flu shots for kids and adults, no appointment needed

Evening and Saturday appointments

Schedule care for the whole family with one phone call
